SOLID WASTE, RECYCLING, AND COMPOST

The Adäka Cultural Festival will provide containers for solid waste, recycling, and compostables for the public. These bins will be regularly maintained by our Logistics Coordinator and assigned volunteers; however, individual food vendors will be required to dispose of their own waste in the dumpster located at the back entrance of the Kwanlin Dün Cultural Centre.

Use of public receptacles by vendors is prohibited.

We encourage Festival vendors to work with us to help keep the Festival grounds and our community clean. We are working hard to reduce the environmental footprint of the Festival and we strongly encourage vendors to be conscious of their waste by using recyclable and compostable service ware whenever possible, and composting any food scraps. Vendors are required to dispose of their own compost.

PERMITS AND HEALTH REGULATIONS

All Adäka Cultural Festival Food Vendors are required to comply with Federal and Territorial Health regulations. All temporary food services must obtain a permit from Environmental Health Services by June 9, 2018 and provide proof of a Permit to Operate issued by Environmental Health Services to Festival organizers. Vendors are also required to have adequate and valid liability insurance.

Note: This is a requirement of Environmental Health Services, but is also happily enforced by Adäka Cultural Festival staff as the safety of our Festival patrons is very important to us!

The public will have access to hand washing stations in the Cultural Centre washrooms. Individual food vendors are also expected to comply with Environmental Health requirements for hand washing.
